## PLANS OF THE UNWASHED

HAWAII TO BE REPRESENTED AT CONVENTION—MAUI DELEGATES TO LEAVE SOON.

It has been definitely determined that the delegates to the democratic National Convention will not depart for the mainland on the S. S. Alameda next Wednesday. At the present time Jack Easton one of the delegates from the island of Hawaii, is on the mainland. Judge Galbraith one of the alternates is aboard the transport Logan en route from Honolulu to San Francisco, so there are practically two of

the delegates already on the mainland, as Judge Galbraith will be entitled to sit as a delegate by right to holding the proxy of Senator Palmer E. Woods of Hawaii.

The action of Woods in giving his proxy to Judge Galbraith without any particular solicitation, has caused considerable criticism of the senator from Hawaii. In fact he has been severely condemned by people who have supposed they had a right to receive consideration at his hands. It is claimed that it was understood that Woods was to give his proxy to another alternate. Woods has not covered himself with glory by his conduct in the present convention so local people say. In fact he tried the game of playing fast and loose with both sides and the result was that he is being condemned by both elements.

J. L. Coke and T. R. Lyons the delegates from the island of Maui will depart for the mainland by the S. S. Sierra. Dr. Norblitt and Col. C. P. Laukae the Oahu delegates have not determined when they will get away. If they leave, it will be on the S. S. Sierra leaving Honolulu June 21.

## A NARROW ESCAPE

Only by the best of good luck was a serious accident averted on the Waikiki car line yesterday afternoon. Car No. 17 in charge of Conductor Long and Motorman Cartwright was bowling in at a lively rate when a team hauling a sand wagon suddenly started out of a lane at the side of the track immediately in front of the car.

Cartwright threw on the brakes but the impetus was too great. Fortunately the horses shied back, but as it was the end of the pole struck the woodwork of the rear part of the car ripping a big piece out and passing only a few inches from the body of Mrs. Lee Gilbert who was coming in from her home near Camp McKinley. The wagon pole snapped like a match. A Japanese who was in charge of the team was a badly frightened man but he could only explain that the team had got away from him.

## RICHER THAN THE KLONDIKE.

Mining Man Sends a Glowing Report of Placer Gold Fields Found in Lower California.

AUSTIN, Tex., May 25.—The placer gold fields, which were recently discovered near La Paz, Lower California, exceeds in richness the placer fields of the Klondike, according to statements contained in a letter received here today from John Boultell, a well-known mining man who was attracted to the new El Dorado several weeks ago. He says Juan Mendoza, who discovered the new placer fields, has cleared more than \$5,000,000 of gold from the property during the past four months.

Many Americans are flocking to the district and some of them have obtained titles to placer claims which have yielded them big fortunes in the short time they have been there.

Boultell says he has a good claim which has cleared him nearly \$80,000 in gold and that it is still good for several times that amount. He asserts that practically all of the good claims have been taken up and advises tenderfoot Americans to stay away. He says only the most hardy prospectors can stand the experiences incident to the search for gold.

## RUBBER INDUSTRY TO START ON MAUI

PLAN TO PLANT RUBBER TREES ON NAHIKU LANDS—SOIL IS SUITED FOR GROWING THE TREE.

WAILUKU, June 8.—There is a rubber boom in town. The other evening at the Maui Hotel several Nahiku land owners discussed the advisability of planting some of the Nahiku lands in rubber trees, it having been proved beyond experiment that the soil is just suited for the tree. W. E. Shaw, W. G. Scott and several others are quite enthusiastic over the proposition. Mr. Shaw stating that he would send for these young trees and have them planted out on his Nahiku lands. Rubber yields from \$1.50 to \$1.75 per pound, and one tree produces an average of one pound of rubber. In one acre of land about 600 trees could be planted, so that this would mean from \$900 to \$1000 per acre, from which of course is to be deducted the cost of planting, clearing, and transportation. When the Nahiku Sugar Co. commenced operations at that place, quite a number of people

## THE ARTISTS' STORY OF JESUS

In a sermon at the Christian Church tomorrow evening Rev. W. D. Westervelt will illustrate with stereopticon pictures the conception which some of the greatest artists have had of the life and work of Jesus. A minister expresses the result of this study in his sermons. An artist puts the result of his years of thought on the canvass. It is well worth while to see the idea of thoughtful art in its relation to the Lord Jesus, as the Teacher and Savior of men. The Christian church extends a cordial welcome to all who can be present.
